

Conformity of our products

zertifiziert nach ISO 9001

Since 1994 Fug works according to the quality assurance system ISO 9001. All shipped units are checked and documented in our testing department with calibrated measuring devices for compliance to the guaranteed characteristics.

All our standard products are marked.

Therewith we guarantee compliance with all relevant European standards and regulations.

Conformity is proven by compliance to the following harmonized standards:

EMV:

EN61000-6-1 und EN61000-6-3 (for single phase mains)
EN61000-6-2 und EN61000-6-4 (for two- and three phase mains)

Safety:

EN 61010-1

RoHS:

EN 50581
